

Company Profile

Al Barwah National Projects LLC

About US

Since 2011 Al Barwah National Projects LLC – has been serving the needs of companies in projects such as Design Engineering, Steel fabrication, Machining and Plant maintenance.

Our commitment to delivering high-end engineered metal products to a wide range of industries, including new and existing Oil & Gas refinery, Construction Industry, Process Industry, Food Industries, Manufacturing company, Fabrication Company etc., has been the cornerstone of continued success.

Over the past decade, we have successfully executed many projects for small, medium & large-scale industries. We could establish ourselves to be a partner for many of the solution providing companies in these field.

Al Barwah National Projects specializes in the Manufacturing and Installation of different types of Steel Structures and Piping Systems. We are also capable of machining a wide range of spare parts intended for Plant Machinery and Equipment. Moreover, we are expert in the maintenance of C.S/S.S/Alloy Pipes and Steel Tanks. In addition, we are heavily involved in the manufacturing such as Portable-cabins, Food Vendors Cabins, Animal Transport Cabins, and Water/Fuel Tankers.

Our Vision

- ⚙ To increase our market value by producing leadership with our positive approach in any conditions
- ⚙ Partner with client internal and external to produce success for all
- ⚙ We wish to implement high level of commitment towards customer satisfaction by performing at peak always.

Our Mission

- ⚙ Working as a team towards our moto: 'we partner your success'.
- ⚙ We consider our customer most valued and only power source.
- ⚙ We provide solutions with top quality workmanship and time commitment.

**Fabrication
& Erection**
(Steel Structure & Piping)

Machining

**Plant
Maintenance**

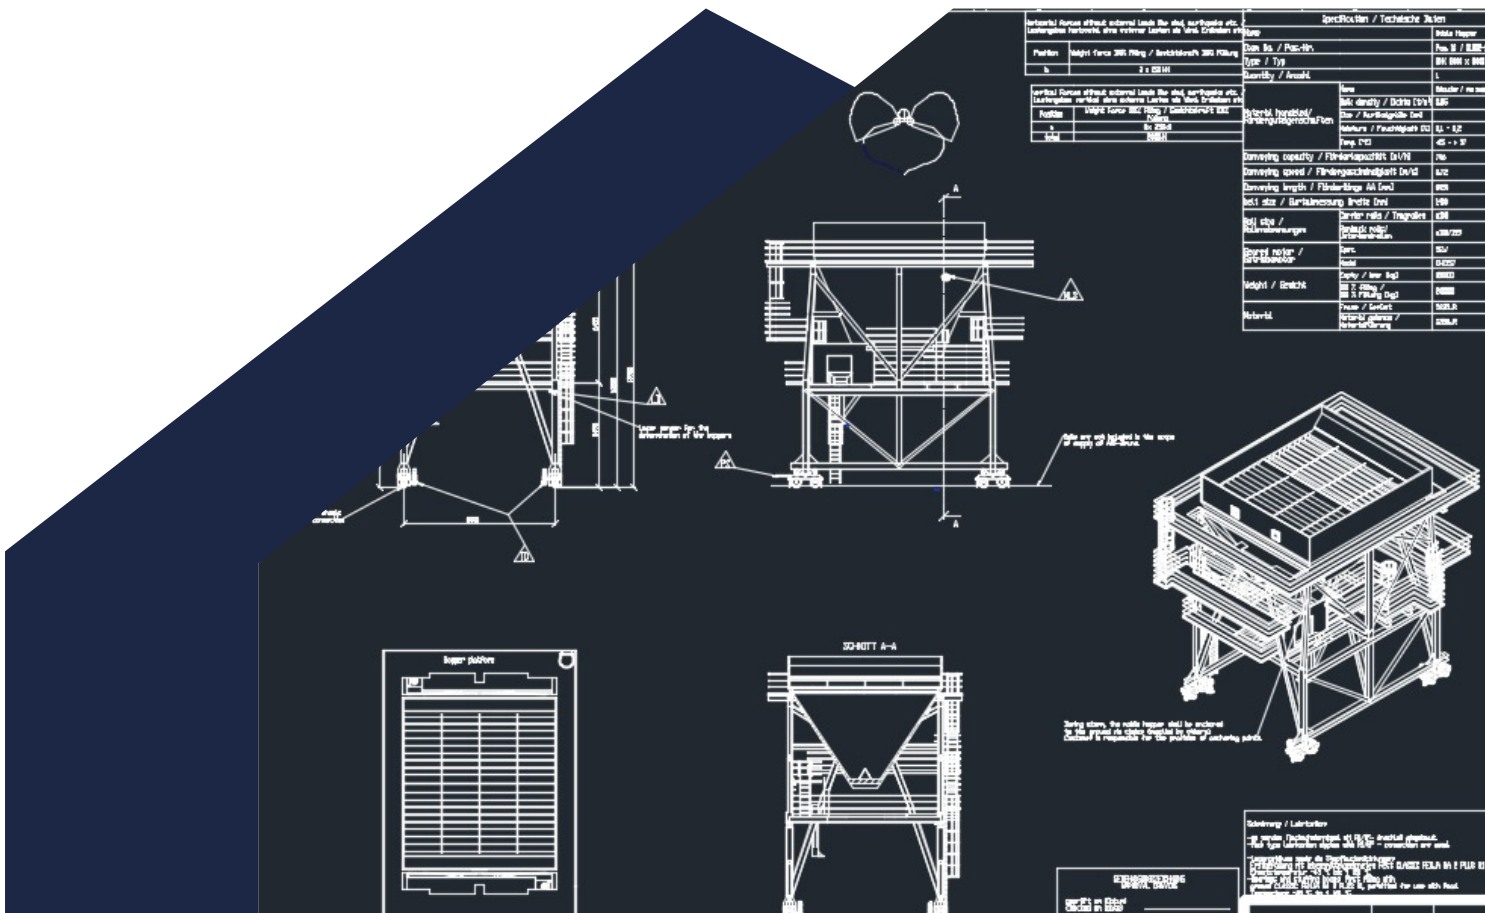

Scaffolding

**Manpower
Supply Services**

Design Engineering

- Engineering & Design: Storage Tank, Industrial Shed, Seal Pot, Coke Drum Chute, Lifting Equipment, Industrial Structure & Equipment Supports Calculation, SS Strainer, Cover Casting etc.
- Studying a design brief.
- Thinking of possible design solutions.
- Researching whether the design will work and be cost-effective.
- Assessing the usability, environmental impact and safety of a design.
- Using computer-aided design (CAD) and computer-assisted engineering (CAE) software to create prototypes.
- Collecting and analyzing data from tests on prototypes.
- Modifying designs and retesting them.
- Writing regular progress reports and presenting them to project managers and clients.

Fabrication & Erection

- ❁ Fabrication & Erection of piping spool & Manifold (Material: CS, SS, DSS, Alloy etc)
- ❁ Steel Structural fabrication & Erection: Industrial Shed, Coke Drum Chute, Platform, Handrail, Ladder, Pipe Support, Electrical & Instrument Steel Supports and Drive Supports, Insert & Embedded Plates, Height restriction Gantry.
- ❁ Plant equipment fabrication & Installation: Transfer pawl, Roller Apron, Roller Table, Furnace duct fabrication, Hopper, Inlet/Outlet Cones, SS Vessel Discharge Ring, Filter & Strainers, Chamber Panel, Rotary Feeder etc.
- ❁ Sheet Metal Fabrication: Gravity Spouting, Square to round Spout, Elevator Casing Jacket, Coupling Guard, Universal Elbow, Pipe Bend.
- ❁ Coded qualified welding.
- ❁ Security panels, grilles, automatic gates.
- ❁ Industrial Sheds, Car Parking, Boundary Fence.
- ❁ Any Teller made fabrication and Erection work according to the requirement of client.

Machining

Collaboration and backing of Sohar University we are serve the various precious machining solution.

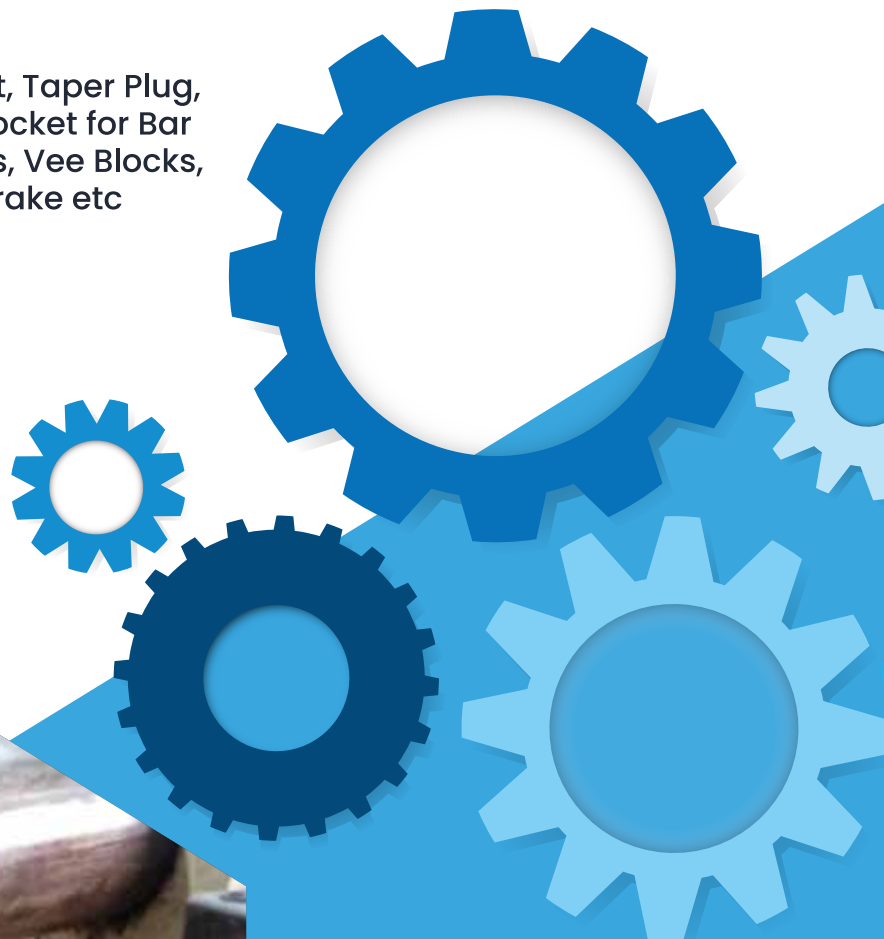

Machining: Turning, Threading, Grooving, Milling,

Boring, Slotting, Shaping, Parting, Reaming, Grinding etc.

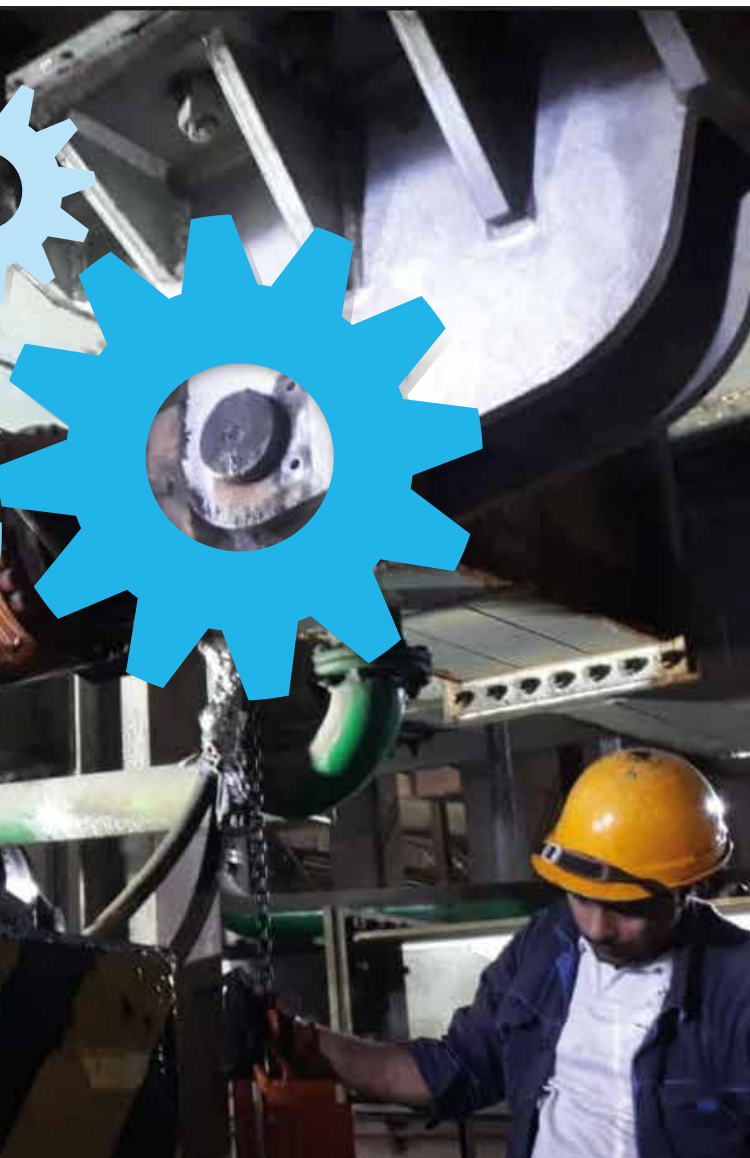

Machining: Flange overlay machining, Various

Flanges, Flange center Drilling & Tapping, Nipple, Coupling, Roller Shaft, Taper Plug, Bracket Photo Cell, Rack & Pinion, Sprocket for Bar counter, Roller Assembly, Anchor Bolts, Vee Blocks, Edge Clamps, Supports Blocks, Vise Brake etc

Plant Maintenance

- ⚙️ We offer in-depth knowledge, experience, and technical expertise across multiple Industrial disciplines. Our commitment to offering creative solutions has earned us the confidence of our client in various project that small or large, simple or complex.
- ⚙️ Erection of Piping, Vessel, Equipment, Machinery etc.
- ⚙️ Site Erection of the Vessel Platform, Sluice Gate, Removal Panel wall, Chute Plate replacement, Girder Beam Installation etc.
- ⚙️ Billet Chain transfer roller & Screw rectification, Refractory Header Cutting, Catch Pot Repair, Reformer Leak arrest etc.

- ⚙️ Installation, maintenance, and repair of industrial machinery and equipment with specialized tools, such as welders or hydraulic bolters, alignment and replace a machine's individual parts and also move and relocate machinery on- and off-site.
- ⚙️ Support services for Annual maintenance shutdown in various plants.

Scaffolding

We have a long history of providing Scaffolding Services to the Construction and Maintenance Industry in Oman offering a safe and sturdy temporary structures for workforce to perform tasks at varying heights. Our team of Engineers, Inspectors, Foremen, and skilled & experienced Scaffolders can cater to the most challenging needs of our Clients and are committed to create safe structure that facilitates access to high areas of buildings or structures. We ensure our Clients that we will use Scaffolding Materials that meets the standards and erect Scaffolds to fit the purpose without compromising the safety or quality and within the approved time frame.

Manpower Supply Services

We have a long history of providing Scaffolding Services to the Construction and Maintenance Industry in Oman offering a safe and sturdy temporary structures for workforce to perform tasks at varying heights. Our team of Engineers, Inspectors, Foremen, and skilled & experienced Scaffolders can cater to the most challenging needs of our Clients and are committed to create safe structure that facilitates access to high areas of buildings or structures. We ensure our Clients that we will use Scaffolding Materials that meets the standards and erect Scaffolds to fit the purpose without compromising the safety or quality and within the approved time frame.

Projects

S.S Piping Spools Fabrication (2021)

*Bashair Gulf/Petrofac/
Duqm Refinery
Sky United/
OQ-Sohar
Refinery*

Projects

Fabrication, Painting, & Erection of Steel Structural Shed and Platforms

*Toshiba Water Solu-
tion/Majees Industrial
Services*

Projects

Fabrication of Piping & Support Structure

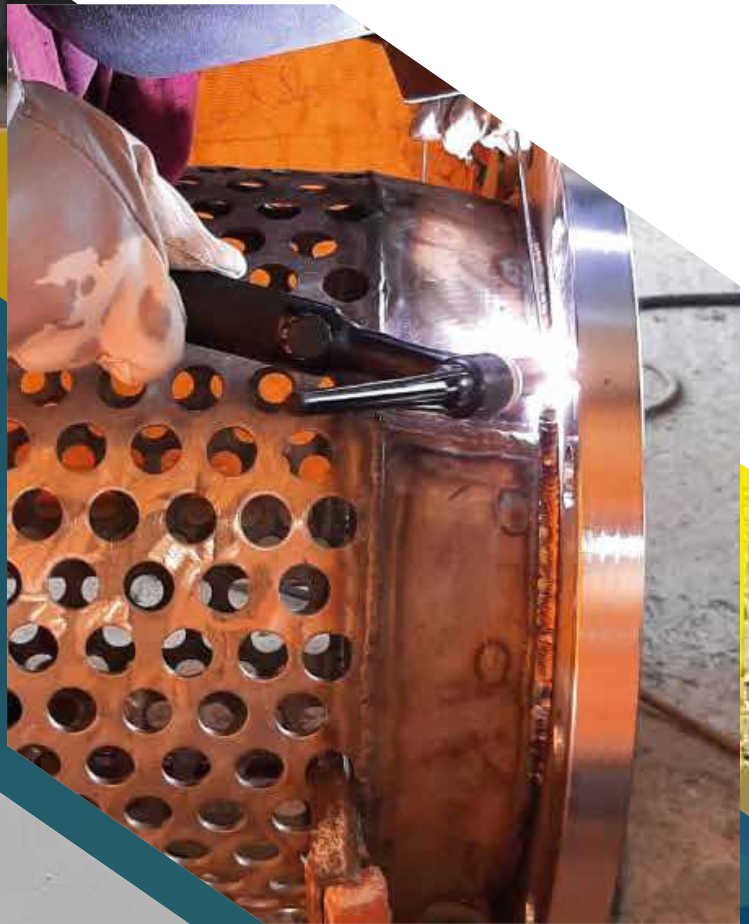

Strategic and Precious Metals Processing LLC (SPMP)

Projects

Multiple Machining, Repair, & Refabrichment

*Jindal Shadeed Iron &
Steel Plant in Sohar*

Projects

Sheet Metal Fabrication & Powder Coating

*BUHLER DMCC/
Sohar Flour Mill*

Projects

Installation of Conveyor Belt System

*Forges Tradieu
Engineering/Oman Sugar
Refinery Co.*

Projects

Fabrication, Galvanizing, & Installation of Shelter for Inverter and Transformer Stations

*Abu Al Azhar
